

UVG declaration of professional and regional salary

Contract number

In the case of **family members, directors and shareholders who are also employees** at least the professional and regional salary must be taken into account (Art. 22 para 2(c) UVV). If the effective salary is smaller than the professional and regional salary, the professional and regional salary is relevant for calculation of insurance benefits and premiums. The professional and regional salary is defined as the income that the insured person could achieve in another company in a similar role with corresponding performance and working hours.

The assumed professional and regional salary applies until it is cancelled in writing. If the effective salary is the same as or even more than the professional and regional salary, the effective salary is used for insurance purposes.

Insured person

Surname, first name

Date of birth

Work environment

Occupation

Working hours in %

works in the company and receives a salary/pays AHV-contributions

and has done so since

is deemed to be insured (mark relevant box)
